Contact page				✓	
Reflections (description of portfolio pieces)					
Content of reflections appropriate				✓	
Project images are high quality					✓
Spelling and grammar are correct					✓

What was your overall first impression of the website?

My first impression of the website was the beautiful background image and the theme of the site.

Did you have any technical difficulties as you navigated through the pages and displayed the projects?

Everything worked on my end; nothing to report

What do you feel are the most effective design elements of this web portfolio?

The "pop out" colors of each project really drew my attention towards them.

What would you suggest be changed with the design or content of this web portfolio?

While the background of the home section is nice, there could of been a few more things added to tie it all together.
